

## Our offer

---

- Integration of biomarker expertise between **academia and CRO's**
  - Collaboration with **biobanks and cohorts** (healthy participants/patients)
  - Extensive **database of biomarker assays**, validated in research and in clinical settings
  - Collaboration with **key-opinion leaders** in relevant therapeutic areas
  - High flexibility for **assay development and bioanalysis**
- 

*“We assist and support in each step of the biomarker workflow”*

# Biomarker Bay

# What is BiomarkerBay?

**BiomarkerBay is the service provider for your biomarker analyses.**

By bringing together **sample collections**, **clinical expertise** and **contract research organizations**, BiomarkerBay provides analytical and clinical **solutions** for each step of the biomarker & companion diagnostics development pipeline.

*“BiomarkerBay helps to improve the communication between customers and suppliers, between commercial entities and academics, helping them ‘to speak the same language’ ”*

# Our services for your biomarker workflow

## Discovery & Confirmation

- Targeted and untargeted proteomics strategies
- Advanced data processing and statistical analysis

## Assay validation

- Fit-for-purpose solutions
- Complete range of validation, from research setting to full GLP
- Application of own developed or commercially available assays

## Clinical validation

- Collaborations with general population biobanks
- Access to patient cohorts
- De-novo sample collection

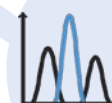

## Assay development

- LC-MS/MS analysis on small and large molecules
- Ligand binding assays
- Metabolic profiling
- Development and production of diagnostic kits and IVD registration

## Bioanalysis

- Vast array of LC-MS/MS analysis
- Expertise in immunoassays
- Extensive list of validated assays

**Biomarker Bay**
